

TCR™ PREPREG FABRICS

Storable at room temperature, our prepreg fabrics are available in many styles, weights, and widths. Commonly used fabrics are stocked and available. With the long out-life of TCR™ resins, storage and processing times are rarely an issue.

Our fabrics, also referred to as "broadgoods," are used in a wide variety of markets including wind energy, industrial, infrastructure, aerospace and recreation.

They are produced using broadgoods from suppliers worldwide. If specialty fabrics are required please contact us for assistance.

Broadgood Forms

Biaxial
Triaxial
Stitched
Uniwoven
Nonwoven
Multiaxial
Hybrids

Fiber Forms

Carbon
Glass
Aramid
Spectra®
Astroquartz®

Packaging

FAW - OSY	Roll lengths in yards
5.0-10.0	50-75 (46-91 m)
11.0-16.0	50 (46 m)
17.0-24.0	30 (27 m)

Resins for Fabrics

Resin System
UF3323
UF3325
UF3339
UF3350
UF3352
UF3357
UF3360
UF3362
UF3374
UF3376
